

2010 APTi Affiliate Chapter Agreement

On behalf of _____ (chapter name), we accept the guidelines provided in the Association for Psychological Type International Chapter Formation and Operations Guide (CFOG) as being the standard for accepted operating practices for affiliated chapters of APTi. Our chapter agrees to abide by the requirements summarized on page 4 of this document and will run our Chapter accordingly.

While APTi and the chapter are associated, each are individual and separate legal entities and are each responsible for their own debits and other legal liabilities with no obligations to each other.

APTi owns the associated logo and name “Association for Psychological Type International” and allows the chapter to use this name only in conjunction with the word “Chapter” in making it clear that the Chapter is not an official representative of the central office. If our chapter, at any time in the future, chooses to end its affiliation with APTi, we understand that use of the associated logo and name are among the privileges we will have to surrender.

We have also read the CPP, Inc., Trademark Guidelines and agree to abide by these standards.
